FAMILY FUN

ALL ABOARD!

There are lots of different ways to travel. Some of the most popular are:

BY CAR: It can take longer to get from place to place this way. However it is easy to stop if you see something exciting along the way!

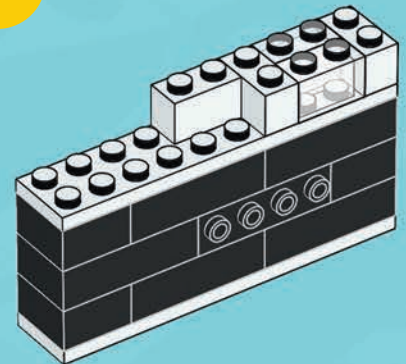

BY TRAIN: Lots of people like to travel by train. It gives them a chance to rest, read, or watch movies while they go on their way.

BY SHIP: Cruise ships go many different places. A big part of the fun of sailing is all the things you can do on board the ship before you get where you're going!

BY PLANE: This is usually the fastest way to get somewhere new. You can go a very, very long way in less than a day!

Which ways have you traveled? Which ways would you like to travel?

Whenever you are traveling, it is a good idea to have a camera with you. That way you can take pictures of all the things you see. You can build this camera using pieces from your LEGO collection. When you are done, you can take it apart and try building other things.

FAMILY FUN

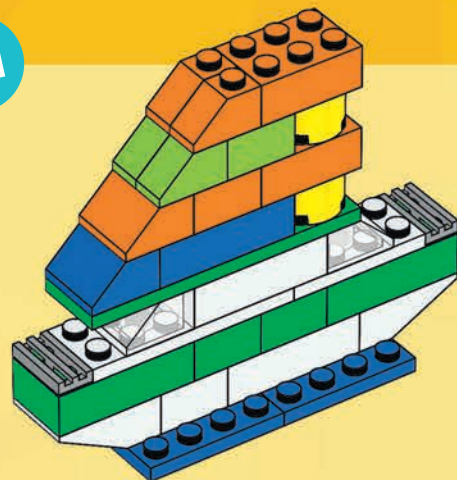

Once your model is built, you can use a shoebox, some paint, glue and cotton balls to create a scene for your sailboat. Paint the bottom half of the inside of the shoebox dark blue for the ocean, then use a lighter shade of blue to paint the sky. Glue in some of the cotton balls to create clouds. Put your sailboat in the box and you will be smooth sailing!

A sailboat can take you to so many places! Powered by the wind and controlled by the direction of the sail, a sailboat is the source of many adventures. Try building this sailboat using pieces from your LEGO® collection.

- Team up with a friend to race your LEGO race cars!
- Make a line at one end of the racetrack for the starting line, and another one at the other end for the finish line.
- Don't forget your LEGO bricks! Use your brick collection to build towers to jump over, road barriers, and stadium seats for minifigure racing fans!
